

# EMERGENCY PREPAREDNESS PLANNING

# HURRICANE FLORENCE

- A trailer park of migrant farmworker families from Central America with leftover flooding that prevents safe driving. (Photo by Aarón Sánchez Guerra/Latino Rebels)

# NCFHP EXPECTATIONS

- If we were a free-standing health center, then we would have to report to HRSA about our emergency preparedness and management plan
- Because we are a voucher program and have multiple sites, we ask that you are included in your host agencies emergency preparedness and management plan and that you report your plan to us in the RFA application

**Including Outreach Workers  
and Community Health  
Workers in  
Health Center Emergency  
Preparedness  
and Management**

# ROLE OF OUTREACH WORKERS

- 
- One component of the emergency plan is to develop a communications plan for how to inform FWs about upcoming emergencies or disasters
  - Manos Unidas developed a plan after Hurricane Florence, with their permission, NCFHP will adapt it to be more universal and create a template to be used by other sites

# Emergency Evacuation Plan

Emergency Preparedness  
Make the plan large and easy to read, and use large font for people not able to read.
